CAPABILITY STATEMENT

## COMPANY OVERVIEW

HUSKER CUSTOM LUMBER L.L.C. is a veteran-owned small business providing custom cut lumber and architectural millwork for residential and commercial clients nationwide. We turn at-risk logs into high-value products, diverting material from landfills while showcasing the natural character of regional species. Our end-to-end process covers milling to requested dimensions, air-drying and kiln-drying to specified moisture content, precision resawing and planing, and shop-built millwork such as beams, moldings, paneling, cabinetry, doors, and trim. Guided by Army values of reliability, integrity, and accountability, we advise clients honestly, deliver to spec, and own our work. Nearly every step is performed in-house to control quality, cost, and schedule, with a vetted subcontractor network available to scale when required. We support historic preservation and high-end new construction alike and are experienced preparing competitive bids.

### NAICS CODES

- 321113 Sawmills
- 321912 Cut Stock, Resawing Lumber, And Planing
- 321999 All Other Miscellaneous Wood Product Manufacturing
- 333248 All Other Industrial Machinery Manufacturing
- 337110 Wood Kitchen Cabinet And Countertop Manufacturing
- 337212 Custom Architectural Woodwork And Millwork Manufacturing
- 423310 Lumber, Plywood, Millwork, And Wood Panel Merchant Wholesalers
- 423990 Other Miscellaneous Durable Goods Merchant Wholesalers

### CORE COMPETENCIES

- Custom sawmilling to spec: dimensional lumber, slabs, and cut stock from reclaimed logs.
- Moisture control: air drying, kiln drying, and meter-verified moisture content to project requirements.
- Resawing, planing, and surfacing: tight tolerances and ready-to-install stock.
- Architectural millwork fabrication: moldings, paneling, doors, trims, and matched profiles for restorations.
- Structural timbers and beams: large-section milling with proven performance on long spans up to 24 feet.
- Cabinetry and countertops: shop-built wood kitchen cabinets and custom countertops.
- Historic preservation support: profile replication, species matching, and conservation-minded methods.
- Sustainable material stewardship: reclaiming at-risk logs to meet sustainability goals.
- Spec-driven production: clear scopes, quality checks, and on-time delivery through in-house control.
- Nationwide service: single-operator shop with a vetted subcontractor network to scale when needed.

### PAST PERFORMANCE

- ✔ **Structural timber fabrication**  
Complete interior demo and full remodel (kitchen, bathrooms, flooring, fixtures). Delivered guest-ready walkthrough on completion.
- ✔ **Historic restoration millwork**  
Historic restoration millwork. Manufactured 200 linear feet of custom dentil molding, profile matched to original architectural details for a period-accurate
- ✔ **Custom furniture fabrication**  
Built a 48" x 96" black cherry dining table, from log selection and milling through drying, machining, assembly, and finish.

### WHY US?

- ✔ **End-to-end control:** Milling, air drying, kiln drying, resawing, planing, and shop-built millwork all performed in-house, which means tighter tolerances, fewer handoffs, predictable schedules, and better cost control.
- ✔ **Preservation-grade craftsmanship:** Custom profiles and moisture-specified lumber that install cleanly and last, proven on historic restorations.
- ✔ **Sustainable sourcing:** We reclaim logs otherwise headed to landfills, aligning with agency sustainability goals.
- ✔ **Veteran-led integrity:** Honest guidance, transparent pricing, and full accountability from start to finish.
